PHILIP T. DODGE'S NEW SCHOONER LAUNCHED AT TOTTENVILLE.

ANOTHER IMPORTANT ADDITION TO THE NEW-YORK YACHT CLUB'S FLEET-GOOD PROS-

portant launch of the season took place yesterday, when the one-design schooner built for Philip T. Dodge, of the New-York Yacht Club, received her dip at the yards of Brown & Sons, Tottenville, The little daughter of Captain E.

Lader the forward decks there is a large fore-caste, in which the crew of four will sleep. Next aft come the galley on one side and the lathroom and cool storage compartment. The centrebeard sides the central part of the boat into two 5-toot staterooms. The main salson is a large compartment, extending the width of the boat and with bunks cupboards and closets for charts, etc., on each side. The interfor is finished in white and gold, and in the long overhangs aft there is much stewage room for light salls and spare lines.

The mass are of spruce, all the spars being small in size. The rigging is set up with turn-buckles all arcund, and while neat in appearance seems slim for heavy work. All the deck cleats are light and small, while the present little belaying plus of wood will probably be replaced by metal ones. Hesides the ordinary lower canvas, the boat will carry a glue topsail on both gaffs in her races, the often the fore to be used when the course permits.

The length over all is 66 feet 6 inches, the londward line, 46 feet 5 inches. FLUSHING WINS THE EAGLE CUP IN THE LONG ISLAND REGATTA.

The thirteenth annual regatta of the Long Island Rowing Association was held yesterday afternoon in Flushing Bay, off North Beach. The weather was all that could be desired for the sport, and the usually turbulent waters of the bay were as smooth and placid as the proverbial milipond. The chief interest centred in the junior four-oared shell race for the Eagle Cup. Four crews were entered for this race, among them one from the Flushing Boat Club, the holder of the cup, and one from the Ravenswood Bont Club. The latter crew was the first that the Ravenswood Boat Club had put on the water in several years, and, although the club holds National records, all this was forgotten, and its crew was not supposed to stand a chance in yesterday's race. It did, however, as it not only rowed well, but it also won the race. The course over which the races were rowed was one mile

What with a big handleap of almost fifty con-testants, and a final round match of thirty-six holes, the Norwood links, at Long Branch, presented a busy sight yesterday. It was the last day of the Norwood Field Club's open tournament, and, as on the two previous afternoons, the clubhouse was well filled with spectators. A succession of inter-mittent showers in the morning somewhat inter-

fered with the play, but did not prevent the com-

pletion of the programme that had been arranged. players, were the competitors in the final round for the Nerwood Cup. Their match was one of the most thoroughly sustained and interesting that has been played this season. At the end of the long four-round journey the score was a tie. This in itself was a surprise to the onlookers, for Vanderpool had been a warm favorite, and his victory was considered so certain that few thought the contest would last into the final round. In playing the extra hole to decide the tle Thurston won by 4 to 5, and was thus declared the winner of the

be seen, and Vanderpool wanted to play it out, but a local rule demanded that he should lift and drop it back of the flower-bed. This imposed a penalty of one stroke, and resulted in halving the hole in 4. At the end of the forenoon play the score was even. Starting the second half in the afternoon, the first hole was halved in 4. The secend gave Thurston his first lead, which was promptly increased to 3 up on the eighth. Poor putting was reponsible for a gradual loss of this advantage, and the first round ended with the score again even. FINALS IN THE MIDDLE STATES CHAMPION-SHIP TOURNAMENT.

The finals in the Middle States Championship Tennis Tournament were played yesterday on the grass courts of the Orange Lawn Tennis Club, at Mountain Station, N. J. The rain of the morning had been sufficiently drained from the courts to admit of play at the scheduled hour for the match, and when the contest began a large attendance sur-rounded the championship court.

M. D. Whitman, of Harvard, and S. C. Millett, of New-York, were the only contestants left of the original thirty-two entries.

MEADOW BROOK DEFEATS WESTCHESTER FOR THE CEDARHURST CHALLENGE CUP.

By mutual consent of all the expert polo players on the Rockaway Hunt Club grounds yesterday. the game between the first Meadow Brook and Westchester teams for the Cedarhurst Challenge Cup was voted the best contest seen in this country in recent years, if, indeed, it has ever been surpassed. The play of the Meadow Brook team was remarkable throughout, J. B. Eustis, jr., being irresistible at back, Harry Payne Whitney, with his relays of fresh ponics, a veritable hurricane at third position; C. C. Baldwin and W. C.  STORM VISITS ASBURY PARK.

LIGHTNING STRIKES IN MANY PLACES AND

MUCH DAMAGE IS CAUSED BY THE WIND. Asbury Park, July 9 (Special) .- One of the worst electrical storms that has visited this neighborhood in recent years occurred this morning. In addition the streets, and later hallstones fell, breaking hun dreds of windows and causing several runaways here and in Ocean Grove. The wind blew with terrific force, uprooting trees, demolishing chimneys, overturning wagons and unroofing houses.

The car barn of the Atlantic Coast Electric Road at Elmhurst was partially wrecked by the gale, and the water toboggan chute at the same place was blown down. Lightning struck the large flagpole in Ratiroad Square, which is owned by the city and which was erected on Independence Day. The pole was sixty-five feet high, and as it fell it tore down the overhead wires of the troiley company, causing a suspension of traffic for several hours.

Waiter Hurley had his hands badly burned by taking hold of one of the wires. Several houses were also thrown down by coming in contact with the wires. Lightning struck the dwelling-house of Frederick Proctor, in Mr. Hermon Way, Ocean Grove, the cupola of The Little Church in the Woods, at Bradley Beach: the cottage of Mrs. Qualfe, in Fifth-ave., and the barn of Dr. J. F. Ackerman, in Grand-ave, The damage, however, was trifling.

The Coliseum Building, in Kingsley-st., was entirely unroofed and the building badly damaged. A stone ball and pedestal weighing three hundred pounds was blown from the roof of the Monmouth Trust Company, making a deep impression in the sidewalk, but, fortunately, injuring no one.

Hundreds of trees were uprooted and the streets were littered with wreckage after the storm. and which was erected on Independence Day.

RECEPTION FOR FIRST NEW-YORK.

ELABORATE PREPARATIONS MADE IN SAN FRAN-CISCO.

San Francisco, July 9.- The reception being arranged for the 1st New-York Volunteer Regiment, about to arrive here, will take the form of an elaborate breakfast. Tables will be spread for fifteen hundred people, and one hundred women of the Red Cross will wait on the soldiers. The Governor and his staff will probably be present. The expenses will be borne by a large number of former residents of New-York, now citizens of San

WRIT FOR GOUVERNEUR KORTRIGHT. SAID BY HIS WIFE TO BE RESTRAINING HIS

LITTLE DAUGHTER OF HER LIBERTY.

Mrs. Therese Kortright, through her attorneys Nicoll, Anable & Lindsay, obtained from Justice Daly yesterday, in the Supreme Court, a writ of habeas corpus directing Gouverneur Kortright, her husband, to produce in court Alice Gouverneur Kortright, his seven-year-old daughter. Mrs. Kort-right, in her petition, said that the child was her stepdaughter, and alleged that she was restrained at some place in this city, the exact situation of which she did not know, by her father and on

at some place in this city, the exact standard which she did not know by her father and one Ada Phipps. This detention of her stepdaughter, she said, was without legal authority on her husband's part.

Mr. Kortright is widely known. He is deeply interested in church work, and is a member of the Church Club. He is also an enthusiastic yachisman. He is a member of the Metropolitan, Kniekerbocker, New-York and Larchmont Yacht and the Racquet and Tennis clubs. His home is at No. 15 East Fifty-sixths.

Diligent inquiry last night failed to find any of those interested in the case, except John D. Lindsay, of the counsel for the plaintiff, and he refused to tell anything about the proceedings beyond admitting that the application had been made and granted. Asked whether or not divorce proceedings had been begun by one or the other of the principals in the case, he answered, "No."

Mr. Kortright so it was said at his home, is in Rhode Island. The dispute, a friend of the family said her hight, probably has arisen out of the seitlement of the Kortright estate, of which Mr. Kortright is one of the beneficiarles. This was in the courts about a year ago.

NO PERMITS FOR CHILDREN.

Mayor Van Wyck has declared his intention to refuse to issue any permits for the appearance of refuse to issue any permits of the appearance children on the stage in theatrical performances during July and August. He has refused several applications for permits, on the ground that children should not be permitted to perform on the stage in warm weather.

THE PRINT-CLOTH MARKET.

Fall River, Mass., July 9 (Special).-There was a fair amount of trading in odds in the print-cloth market during the week, and moderate sales of market during the week, and moderate sales of regulars. The sales were all of spots or goods for nearby delivery. The week closed with the market rather flat. There continues a moderate demand for odds in small lots, which the manufacturers are considering, though not eagerly. The only demand for regulars is for deliveries after August. The price bid is two cents, the current quotation, and manufacturers decline to trade so far ahead at that price.

NO ELECTION BILL DRAFTED.

GOVERNOR BLACK STAYED AT HOME AND NO WORK WAS DONE.

THIS MAY PROLONG THE SESSION-WAR TAX PROBABLE-CONTROLLER COLER WANTS

IBY TELEGRAPH TO THE TRIBUNE. Albany, July 9 .- Governor Black revealed today that he does not have an ardent interest in the proposal to meddle with the election affairs of New-York City, by remaining at his home in day, and no bill yet prepared modifying the election machinery of New-York, he would nat-

urally have come here and gone to work with

Senators Krum and Stranahan to get ready &

bill of that nature, if he had cared especially

about the measure. But instead he remained away, and Senators Krum and Stranahan, after wandering about disconsolately for a time, took railway trains for their homes at Cobleskill and Fulton. The Legislature, therefore, will apparently meet on Monday night without any programme arranged for dealing with election affairs in New-York, and such Senators and Assemblymen as were in town to-day declared that this unprepared condition of the various bills to be passed would naturally lead to the consumption of a good deal of time by the Legislature in the work of preparation, and materially prolong the

session. It was said that possibly a committee would be appointed to take evidence regarding election frauds in New-York by repeaters and prepare a bill to prevent it. The latest bill suggested is one authorizing Governor Black to appoint a Supervisor of Elections for New-York, clothed with authority to name deputy supervisors, on the nomination of Tammany Hall and the Republican organization. WOULD NOT SATISFY THE ORGANIZATION.

Mr. Quigg, when here yesterday, said frankly the New-York Republican organization would not be satisfied with such a measure. The only thing that would satisfy it, he said, was the institution of a Metropolitan Board of Police and the reinstatement of Hamilton and Philips as Commissioners.

Senator Krum, before he started for home, Senator Krum, before he started for nome, learned to his evident dismay that the Volunteer Army Appropriation bill would have to impose a tax rate. The bill will contain an appropriation of \$2,000,000. Deputy-Controller Merriman said to Senator Krum: "If any such amount as \$2,000,000 is appropriated to equip the volunteer soldiers of the State it will be needful to impose a tax, for Controller Roberts cannot go on borrowing money to pay these war bills."

cannot go on borrowing money to pay these wills."

The Legislature in March last appropriated \$1,000,000 for war purposes, but neglected to impose any tax to raise the money. Consequently Controller Roberts has had to pay some of the bills contracted for the equipment and transportation of the volunteers with money taken out of a surplus, and may have to borrow money to pay the rest of the bills. This is a bad method of doing business. Taxes should be imposed to meet appropriations. Undoubtedly the Legislature, which will meet here on Monday night next, appreciates the fact and will add to the State tax rate an amount sufficient to pay all the war bills.

WHAT CONTROLLER COLER WANTS.

WHAT CONTROLLER COLER WANTS A good many people desire legislation. Bird

S. Coler, Controller of New-York, for instance, arrived here to-day for the purpose of asking Governor Black to include among the measures needing the attention of the Legislature the subject of the debt limit of New-York. Mr. Coler was much disappointed not to find Governor Black here. He mentioned the nature of his business to Colonel Griffith, the private secretary of the Governor, who thereupon took him to Charles Z. Lincoln, the Governor's law adviser. Mr. Coler and Mr. Lincoln had a conference on the subject of the debt limit of New-York, lasting an hour.

Mr. Coler, at its conclusion, said to The Tribune correspondent: "The new charter for Tribune correspondent: "The new charter for New-York provides that all the debts of all the municipalities and counties included within the limits of New-York City shall be considered as part of the city debt. The county debts of the counties of Kings, Richmond and Queens amount to \$22,000,000. In my opinion the Constitution does not intend that this \$22,000,000 should be included in our city debt. I wish to have an act passed by the Legislature at its except asset of the provided that the \$22,000,000 is the constitution of the provided that the \$22,000,000 is have an act passed by the Legislature at its special session declaring that this \$22,000,000 is not part of our city debt. Section 10 of Article S of the Constitution says that whenever hereafter the boundaries of any city whenever hereafter the boundaries of any city shall

hereafter the boundaries of any city shall be-come the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as a part of the city debt. "If this \$22,000,000 is taken out of our legal debt the credit of the city will be largely im-proved. Understand me, the credit is now good and city bonds are all right, but such an act as that I have indicated would strengthen our credit; we would be further away from our debt limit."

limit."

Controller Coler may come up here from New-York on Monday in order to have a talk with Governor Black personally on this important subject

MESSRS. QUIGG AND BIDWELL SILENT.

TALK ABOUT THE RESULT OF THEIR VISIT TO ALBANY-SENATOR PLATT SAID TO BE DISSATISFIED.

While neither Congressman Quigg nor Collector Bidwell would speak yesterday about their visit to Albany, and the conference regarding proposed po-lice legislation at the coming extra session of the Legislature, other politicians asserted that matters had been complicated by their trip. To quote the words of one: "The president of the County Com-mittee spoke eagerly and enthusiastically for

mittee spoke eagerly and enthusiastically for a metropolitan police commission, but his words fell on unsympathetic ears."

It was learned yesterday that when Mr. Quigg appeared before the Judiciary Committee of the Assembly he presented what he practically declared to be an ultimatum from the Republican organization of this city. He demanded, on the part of the organization here, the creation of a metropolitan police commission. It was said by certain politicians yesterday that Mr. Quigg was not authorized to present an ultimatum either to the Legislature or to the Governor. It is the opinion of many Republicans that his trip to Albany It is also known that Senator Platt was not con

was uscless.

It is also known that Senator Platt was not consulted about the trip to Albany, and that he did not authorize the statement that the Republicans of the city would insist upon a metropolitan police commission. He was said to be much irritated at the way things were handled. As matters stand the indications are that no legislation in relation to the police situation in this city will be passed at the special session of the Legislature.

Republican politicians in the city last evening said it was plain that there could be no agreement upon an amendment to the Election law, and it would be best not to have any legislation affecting the control of the elections in the city if the police were to be left under the control of Tammany Hall. The plan of trying to prevent frauds in the elections by having United States marshals at the polls had been tried in this city and had proved a failure, the politicians said, and if United States marshals could not prevent repeating at the elections it was useless to try the plan of having State supervisors guard the polis on election days. It is asserted by the Republican machine leaders that the police will be the chief nower at the polis in this city, and that so long as the police are controlled by such a man as Chief Devery the Tammany bosses will have the opportunity to cheat in the elections

PREPARATIONS OF TAMMANY.

Anticipating the return of Richard Croker, who will assume control and have charge of the campaign for Tammany Hall this fall, Tammany mea are getting ready for the contest. So far as the State ticket and delegates to the State Convention are concerned, Tammany is not doing a thing. All many will follow him blindly in his fight against ex-Senator Hill and his friends. Just what Mr. Croker intends to do in that contest Tammany men profess not to know. There is a good deal of talk just at present about

There is a good deal of talk just at present about possible Tammany Hall nominations for Congress.

It is said that Congressmen Vehslage, Cummings, Bradley, Sulzer and McClellan will doubtless be renominated without opposition in their respective districts, unless Mr. Croker interferes, and this is not looked for. State Senator Timothy D. Bullivan is on the slate for nomination in the VIIIth District, now represented by John Murray Mitchell, Republican. In the XIVth District, now represented by Lemuel E. Quigg. Andrew J. Connick, a wealthy contractor, is said to be the most likely candidate on Tammany's ticket. State Senator Jacob A. Cantor is after the nomination in the XVth District.
